

LUCAS GONTIJO

Software Engineer | Full-Stack Developer

Seville, Spain · gontijoguimaraeslucas@gmail.com · +34 717 719 678 · linkedin.com/in/lucasgont

I turn complex requirements and business needs into practical, production-ready solutions. I enjoy taking a problem from the initial idea through implementation and deployment, while keeping scalability, maintainability, performance, and user experience in mind. My approach is simple: understand the problem, build the right solution, and make sure it delivers real value.

TECHNICAL EXPERTISE & CORE COMPETENCIES

Software Full-stack development, software architecture, end-to-end feature development, scalability, performance optimisation

Frontend React, Next.js, TypeScript, JavaScript, CSS, Tailwind CSS, Sass, responsive design, SEO optimisation, UI/UX

Backend Node.js, Express.js, REST APIs, authentication and security, business logic, WebSockets, server-side development

APIs & Integrations REST API, third-party API integration, Stripe, payment systems, social media integrations, AI integrations

Databases & Data PostgreSQL, MySQL, relational database modelling, database design, query optimisation, data persistence

Cloud & DevOps Azure, Docker, Render, Vercel, Cloudflare, Linux, cloud infrastructure, deployment workflows, environment management

Engineering Practices Git, GitHub, Figma, YouTrack, Agile/Scrum, version control, feature planning, technical documentation

Technical Collaboration Code reviews, technical coordination, developer onboarding, cross-team collaboration, knowledge sharing

PROFESSIONAL EXPERIENCE

Vivage Clinique | Freelance Full-Stack Developer · Dec 2025 – Apr 2026

<https://vivage.pt>

- Led the complete development lifecycle of the company's web platform, from requirements analysis and Figma prototyping to backend architecture, cloud infrastructure and production deployment.
- Built and deployed a multilingual corporate platform using Next.js, React, TypeScript and PostgreSQL, including 30+ pages and dynamic treatment catalog architecture.
- Implemented bilingual internationalization (PT/EN), dynamic routing and SEO-focused architecture to improve discoverability and scalability.
- Managed cloud infrastructure and production deployments using Render, optimizing application performance, scalability and operational costs.
- Structured the project using Git workflows and phased delivery methodology to ensure maintainability and scalable growth.

Filmer | Full-Stack Developer Intern · Dec 2025 – Apr 2026

<https://filmer.es>

- Developed and implemented full-stack features for a SaaS marketing platform using React, TypeScript, Node.js and PostgreSQL.
- Designed and implemented a complete new user system ("influencers"), including frontend flows, backend logic and relational database updates.
- Built key business features including Stripe subscriptions, metrics paywall systems and real-time chat/file management improvements using Socket.io.
- Contributed to platform scalability, performance, SEO and security improvements while participating in production deployments on Render and Google Cloud.
- Expanded platform capabilities and scalability through third-party API integrations with Instagram and TikTok, performance optimisation and production deployments, supporting a 2x increase in users.
- Led technical coordination across the development team, including code reviews, task definition, feature planning and onboarding documentation in YouTrack, helping structure development workflows and accelerate onboarding for new developers.

Beehackers | Web Development Intern · Jan 2025 – Jun 2025

- Learned cybersecurity fundamentals including vulnerability assessment, Linux virtualized environments and secure web development practices.
- Explored practical applications of AI-assisted workflows in security and development environments.

EDUCATION & CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) · Issued May 2026

<https://learn.microsoft.com/api/credentials/share/en-us/LucasdevilaGontijoGuimares-6335/B94FDCA1CD5A1883?sharingId=39E13440B08EADBE>

Higher Technician in Web Application Development (DAW) · Sep 2024 – Apr 2026

FESAC · Seville, Spain

Aerospace Engineering (Incomplete) · Sep 2019 – Jun 2022

Universidad Rey Juan Carlos · Madrid, Spain
